Build Beautiful Outdoors

in 4 steps >

Outdoor spaces demand more than good design – they demand the right materials, from the right place, at the right price.

You bring the vision.
We'll bring the supplies.

The **Youngs Landscaping Collection** brings together carefully selected ranges supported by a knowledgeable team who understand what it takes to build outdoor spaces properly.

From groundwork to finishing detail, we focus on materials that bring structure beneath the surface and beauty above it.

1. Paving

Surfaces to define spaces

2. Fencing

Bringing style and privacy

3. Decking & Cladding

Extend your living outdoors

4. Aggregates

Add character underfoot

01 PAVING

For outdoor spaces with both style and substance

Paving Collections

Our featured paving is brought to you from **Castacrete** - a trusted supplier known for combining proven materials with consistent manufacturing standards.

Their ranges bring together style, durability and ease of installation, making them a dependable choice for both trade professionals and homeowners.

A complete paving range designed to suit every garden style, surface and setting.

At Youngs, we offer a carefully selected range of paving solutions to suit everything from modern outdoor living spaces to more traditional garden designs. Whether you're creating a new patio, upgrading a driveway or defining pathways and feature areas, our paving collection combines quality materials with practical performance.

From low-maintenance porcelain to characterful natural stone, alongside durable concrete and block paving options, each range has been chosen to provide reliable results across a variety of applications, with something perfect for you.

Porcelain

For a pristine finish and style that lasts

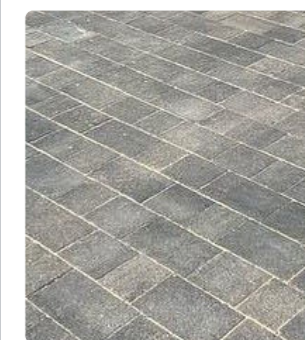

Natural Stone

For natural character and timeless appeal

Concrete

For practical surfaces with design that is durable

Block Paving

For structure and charisma, whatever the layout

Porcelain Paving

Porcelain is rapidly becoming the must-have choice for any garden. And at Youngs, we offer a carefully selected range of porcelain paving from Castacrete, that's designed to complement your vision and bring your outdoor space to life.

Porcelain is a highly durable, man-made product created from a blend of clay, sand, and other minerals, fired at high temperatures in a kiln. This process results in a paving material that's exceptionally hardwearing and incredibly easy to maintain. Thanks to its non-porous finish, porcelain stays looking pristine year after year with minimal effort, offering longevity and a timeless, elegant look for your garden.

Whether you're after a sleek modern vibe or a more classic aesthetic, porcelain is the perfect choice to elevate any outdoor space.

Raj Mint Camel Grey Black

Natural Stone Paving

Natural stone has long been valued for its authenticity, variation and enduring beauty. At Youngs, our selection of natural stone paving offers a range of finishes that bring warmth, texture and individuality to outdoor spaces.

Formed over time and shaped by nature, each piece features unique tonal variation and surface detail, creating patios and pathways that feel established and full of character from the moment they're laid. Calibrated for a more consistent thickness, natural stone also provides a practical solution for installation without losing its organic appeal.

From traditional garden designs to more contemporary settings, natural stone delivers a timeless finish that continues to mature and develop its character over time.

Concrete Paving

Concrete paving offers a reliable and versatile solution for outdoor spaces, delivering consistent strength, clean finishes and practical performance suited to patios, pathways and everyday landscaping.

02 FENCING

Full range of fencing options to suit every garden

Fencing

Fencing is a key part of any outdoor space, helping to shape the layout, define areas and create a clean, finished look across gardens and exterior projects.

With a range of styles available, from solid closeboard panels to lighter lap options, different fencing types offer flexibility depending on the level of privacy, strength and finish required. Whether you're replacing existing panels or working on a new project, the right choice of fencing helps bring structure and consistency to the overall space.

Engineered for outdoor living and beautiful exterior design

Decking & Cladding

Our featured range includes NewTechWood composite decking and cladding alongside Cedral fibre cement cladding - trusted brands known for combining innovative materials with long-lasting performance.

Together, they offer durable, low-maintenance solutions designed to retain their appearance and perform reliably in outdoor environments.

Shape outdoor spaces and exterior finishes with products designed to perform and last.

Outdoor spaces are no longer just functional - they're designed, defined and built to be enjoyed.

Decking and cladding play a key role in shaping these environments, bringing structure, texture and visual impact to both horizontal and vertical surfaces.

From low-maintenance composite decking to contemporary cladding systems, this collection is designed to deliver consistent performance alongside clean, considered finishes - creating spaces that look the part and continue to perform over time.

Composite Cladding

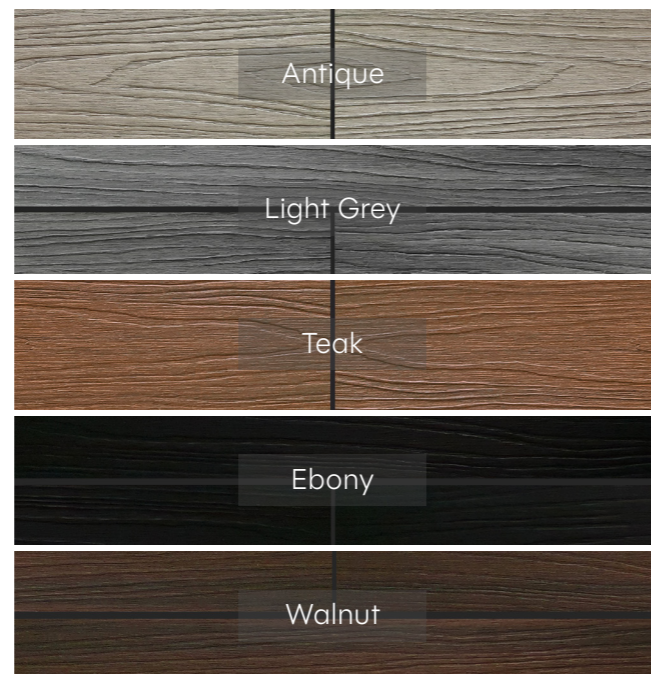

Ultrashield Essentials

A durable composite board with a protective outer shell, offering low-maintenance performance and long-lasting colour.

Ultrashield Naturale

Designed to replicate the look of natural timber, this range combines authentic wood grain with long-lasting composite durability.

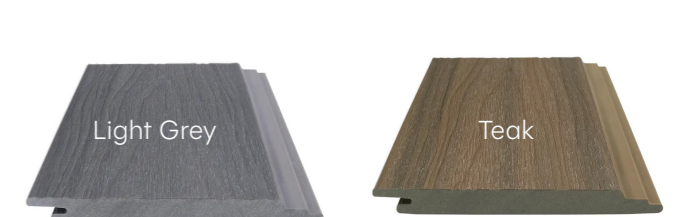

Ultrashield Naturale Slatted

A modern slatted system delivering clean lines and natural texture with durable, low-maintenance composite performance.

Ultrashield Naturale Traditional

A classic cladding profile that combines the look of timber with the durability and low maintenance of composite materials.

In Stock at Youngs.

NewTechWood

NewTechWood composite products combine innovative UltraShield® technology with recycled materials to deliver durable, low-maintenance solutions designed to look good and perform for years to come.

Cedral Cladding

Cedral cladding offers a modern, low-maintenance alternative to traditional timber, combining the natural look of wood with the strength and durability of fibre cement. Designed for exterior facades, it delivers clean, consistent finishes that retain their appearance over time without the need for ongoing upkeep.

Made from a blend of cement, sand, water and fibres, Cedral boards are built to withstand the elements, resisting rot, pests and weathering while maintaining colour and performance year after year. Available in a range of styles and finishes, they provide a versatile solution for both contemporary and traditional builds.

Cedral is a leading name in fibre cement facades, known for combining durable materials with refined design. Their cladding systems are widely used across residential and architectural projects, offering reliable performance alongside flexible styling options. Available at Youngs.

CEDRAL
by etex

Cedral Click

A traditional overlapping cladding system that creates a classic weatherboard finish, adding texture and character to exterior facades.

Cedral Lap

A tongue and groove cladding system designed to deliver a smooth, flush finish with clean lines for a more contemporary look.

04 AGGREGATES

The finishing touch for every landscaping project

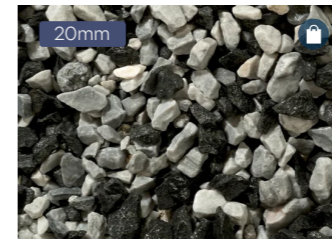

Decorative Aggregates

Decorative aggregates bring the final layer to outdoor spaces - adding texture, contrast and definition across a wide range of landscaping styles. From pathways and borders to feature areas and ground cover, they offer a simple way to enhance both the look and layout of a garden.

With a wide selection of colours, sizes and finishes available, decorative aggregates can be used to complement planting, paving and structures, helping to tie the overall design together while providing a practical, low-maintenance surface.
